

56367. "(No. 6747. November, 1922.) A handsome climbing shrub 16 to 18 feet high, from the Likiang Snow Range at an altitude of 11,000 feet, near Yulungtsuin. The white flowers are 2 inches across and the fruits are oval and red."

56368. "(No. 6795. October, 1922.) A shrub 8 feet high, with small white flowers and round red fruits, found along the watercourses back of Nguluke on the Likiang Snow Range at altitudes of 9,000 to 10,000 feet."

RUBUS LUTESCENS (Rosaceae), 56369. **Raspberry.** From China. Seeds collected by J. F. Rock, Agricultural Explorer of the Bureau of Plant Industry. "(No. 6749. October, 1922.) This is perhaps the best raspberry of the Likiang Snow Range, where it grows as a small shrub a foot or two high, on the western slopes at an altitude of 15,000 feet. The leaves are small and the large, deep orange-yellow berries are sweet and very delicious." (Rock.)

SCHIZANDRA AXILLARIS (Magnoliaceae), 56370. From China. Seeds collected by J. F. Rock, Agricultural Explorer of the Bureau of Plant Industry. "(No. 6825. October, 1922.) An ornamental climber which occurs in fir forests on the Likiang Snow Range at altitudes of 11,500 to 12,000 feet. The axillary flowers are magenta in color." (Rock.)

SMILAX sp. (Smilacaceae), 56371. From China. Seeds collected by J. F. Rock, Agricultural Explorer of the Bureau of Plant Industry. "(No. 6746. November 29, 1922.) A handsome, climbing, thorny shrub which grows on the Shweli-Salwin Divide, in open scrub forest at altitudes of 6,000 to 7,000 feet. The leaves are small and oval and the berries scarlet." (Rock.)

SORBUS spp. (Malaceae), 56374 and 56376. **Mountain ash.** From China. Seeds collected by J. F. Rock, Agricultural Explorer of the Bureau of Plant Industry. Quoted notes by Mr. Rock.

56374. **SORBUS** sp. "(No. 6776. October, 1922.) An ornamental tree 25 to 30 feet high, with large pinnate leaves, which grows on the road from Ashi to the Yangtze River, Likiang Snow Range, at altitudes of 10,000 to 11,000 feet. The white fruits are in large clusters."

56376. **SORBUS** sp. "(No. 6785. October, 1922.) A tree 20 feet in height which grows in forests of *Abies forrestii* on the Likiang Snow Range at an altitude of 12,000 feet. It is very ornamental because of the large clusters of round red berries."

SPINACIA OLERACEA (Chenopodiaceae), 56603. **Spinach.** From Tengyueh, Yunnan, China. Seeds collected by J. F. Rock, Agricultural Explorer of the Bureau of Plant Industry. "(No. 7812.) 'Po tsai.' The dull-green leaves are lyrate-sinuate, with sharp-pointed tips and lobes and
